

# Flags in Canada

Every province and territory in Canada has its own flag. However, the one symbol that unites us all is the red and white national flag of Canada, first raised on February 15, 1965. You will need to print this page in color. See your teacher for a Color copy.

1. Label each flag below with the name of the province or territory to which it belongs.
2. Study the flags carefully. Do you see any features that indicate British or French heritage.
3. Choose any 5 Canadian Flags and explain how the symbols on the flag are related to the province.
4. Make a list of 5 different places in your community where the Canadian flag is flown.
5. See your teacher to select a flag which you will construct on 8.5 x 11 paper
